# *Brownstein Development Diagnostic*

Presented By

**Greg Vallin**

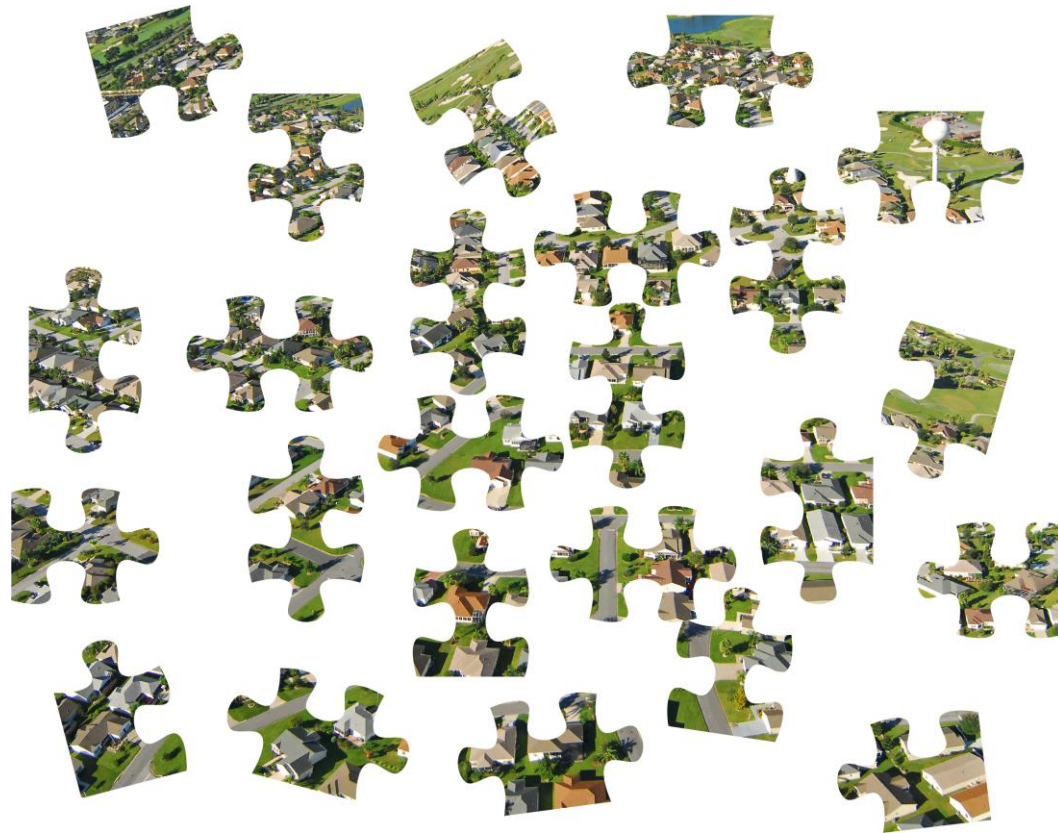

**Carolynne White**

**Brownstein**

# *The Problem*

Development projects are usually complex and involve many different layers and obstacles

# *The Solution*

Brownstein's Development Diagnostic will analyze your project from an experienced, multidisciplinary perspective to look for and highlight potential problems, gaps and opportunities in the project.

# *How does it work?*

1. You consult with one of our team leaders on the phone to provide background information about your project.
2. The team leader determines what experts would be the most helpful to your project and schedules a 2-hour interactive meeting to assess the project.
3. Your tailored SWAT team of experts will brainstorm with you on your project and ask critical questions.
4. After your meeting, your team leader will deliver a one-page report to you that will provide you with expert comments, including a summary of any gaps or opportunities to consider.

# *Why do it?*

- ✓ Access to the top development experts and advisors in Colorado
- ✓ Gives you a holistic perspective
- ✓ Highlights potential opportunities, gaps and problems
- ✓ Avoid surprises and minimize issues
- ✓ Save time and money
- ✓ Peace of mind

# *There must be a catch.*

We are so confident in our team that we think you will want to hire us. But rest assured the Development Diagnostic is a no risk proposition.

- No cost to you
- No other commitment
- No strings attached
- No catch

# *How do I find out more?*

Contact one of our team leaders, **Greg Vallin** or **Carolynne White**, to start the dialogue today.
